

# Consumer Payment Portal

## Billing File Presentation & Payment Solution

The Consumer Payment Portal is a consumer-facing solution that is hosted in the Google cloud. The solution allows our clients to process in-person and phone transactions as well as the ability to enroll cardholders into recurring or scheduled transactions. Additionally, this solution is capable of supporting fee-based and absorbed fee payment processing models.

**1** Step #1: Authentication Layer

**2** Step #2: Presentation Layer

**3** Step #3: Payment Layer

\*\* PAYMENT DISCLAIMER \*\*

Please note that we use a Managed Payment Portal provided by Convenience Payments for all of our payment processing needs.

Convenience Payments charges the following fees:  
Payments under \$50.00 - \$5.00  
Payments between \$50.00 - \$500.00 - 1.50%  
Payments over \$500.00 - 1.00%

Convenience Payments charges and receives the fee amounts and they use it to pay for the software, payment security, compliance, processing fees, and customer support.

If you have any questions or would like to talk to someone in customer support, please call (855) 872-6632 during standard business hours: Monday through Friday 9am - 5pm Eastern Time.

By submitting payment information through this Service, you agree to the terms and conditions of this Agreement and any documents incorporated by reference. You further agree that this User Agreement forms a legally binding contract between you and the software company, and that this Agreement constitutes a "writing" as defined by applicable law or regulation. Any rights not expressly granted herein are reserved by the software company. By clicking on the "Submit Payment" button you are accepting these terms and the stated fees for using this service. Please remember to print this form for your records.

Give us a call today to discuss your card and ACH payment acceptance options, goals & requirements or to schedule a product demonstration.

## Key Platform Features & Functions

All of our payment solutions undergo rigorous annual "Level 1" PCI security reviews and adhere to all Payment Card Data Security Standards (DSS).

All of our cloud-based payment solutions are securely hosted in the Google Cloud which means a worry-free experience, exceptional uptime and an unlimited bandwidth via their managed instance group autoscaling capability.

The IntelliPay platform supports multiple User hierarchies. Masters and Administrators can fully manage downstream users and assign a multitude of processing and reporting rights, permissions and passwords.

The IntelliPay platform is highly configurable and includes customizable reporting & research options with multiple configuration settings such as Client Department drop-down menus and Client defined custom data fields.

We get it, data capture and multiple reporting options are critical to managing any Business. Tell us what data is important and we'll securely manage the data and provide detailed reporting and research options.

All of our solutions are capable of supporting multiple fee-based payment models and types, including Visa, Mastercard, Discover, American Express, ACH or eCheck payment processing.

Dedicated developer support is where we excel. We'll work closely with you to integrate, design, configure and deploy the right solution for your specific requirements and provide ongoing developer support.
