

IntelliPay is a PCI DSS Level 1 compliant, and enterprise-grade managed payment platform that provides your organization with countless payment processing solutions, options, and configurations both in the U.S. and Canada.

Payment acceptance for in-person, mobile, online, IVR, over-the-phone, mail, and text. Plus scheduling for recurring transactions and easy set-up for installment plans.

Our platform supports multiple payment models that reduce or eliminate processing fees:

- Traditional (Absorb) Fee
- Service Fee
- Surcharge Fee
- Site Fee
- Convenience Fee

Our Google cloud-based platform is one of the most scalable, flexible, easy to manage, and navigate payment platforms in the Industry.

Our partnerships with leading payments innovators ensure we have the innovative payment acceptance solutions you need when you need them.
