

Consumer Payment Portal 2.0

Secure, intelligent online payments

Simple and Easy Way to Get Paid

The custom branded invoice screen allows your customers to see and pay open invoices creating a seamless customer payment experience that reduces late payments. Registered users enjoy advanced features like a built-in wallet that eliminates the need to re-enter payment information, auto-pay, and the ability to search and view current and previous payments.

Guest Option

The guest option allows anyone to make a payment without registration - perfect for one-time payments.

Invoice Screen

The screenshot shows the 'INVOICES' tab of the consumer payment portal. The interface is branded with 'YOUR LOGO HERE' and 'Hello, John!'. It displays account information (48763489), a balance of \$858.00, and a payment history table. Annotations highlight key features:

- Brandable:** Points to the logo and greeting area.
- Custom fields:** Points to the account number and balance display.
- Easy-view Payment Window:** Points to the 'Paid YTD' and 'Overdue' amounts.
- Auto Pay option:** Points to the 'Auto Pay' toggle switch.
- Digital wallet:** Points to the 'WALLET' tab in the top navigation.
- Search & download invoices:** Points to the 'Current Invoices Due' table.
- Full & partial payments, view payment detail:** Points to the 'Description' column in the invoice table.
- Charge fee option:** Points to the 'PAY NOW' button in the 'Confirm Payment' section.

Date	Description	Paid	Due	Status
Oct 16, 2020	October Payment	-	\$953.00	Due

Jul 16, 2020	July Payment	200	\$653.00	Due

Confirm Payment

Amount	Fee	Total Payment
\$853.00	\$5.00	\$858.00

Reduce Risk, Improve Efficiencies

As one-time and phone-in orders become a reality for more businesses, so does your liability if your staff uses paper notes to record sensitive cardholder and bank data. Our customer portal eliminates this risk and the liability imposed by paper records.

Easy integration with back-end systems automates deposits and payment recording saves time while reducing data entry errors.

Our fully hosted PCI-compliant customer portal accepts all credit, debit & ACH payments, reduces PCI Audit scope, and is secured by IntelliPay's industry-leading security.
