

Card Present	Credit Card Terminals	EMV compliant countertop/USB payment card swipe/dip devices from Verifone and IDTech
	Kiosks	Secured self-service payment terminals
	On POS	Virtual One Terminal
	Mobile Application	Need to accept payments anywhere? Our mobile application available for iOS and Android, makes remote payment acceptance a breeze, but it also tracks who entered the payments using a username and password.
Card Not Present	Online Payment Page	Online payments grow your business, speed payments, and improve customer satisfaction. Hosted on our network, we can add an online payment page to any website quickly and keep transactions off your systems, reducing your PCI audit scope.
	Customer Portal	Give your customers what they want, let them pay their invoices safely and securely online. Customers can register or pay as a guest, set-up auto-pay, and view payment history.
	Lightbox	Lightbox Terminals available in two pop-up modals; one for “Card Not Present” transactions; and one for EMV “card present” transactions. Accept payments with the confidence of receiving the appropriate interchange fees, chargeback protection, and PAN (Personal Account Numbers) encryption.
	Email Payments	Our One Link Email Payment feature allows you to send a secure payment link via email directly to your customers along with your invoice. One Link helps you get paid faster, improves your cash flow, and reduces late and missed payments
	Mobile & App Integration	Our One App integrates with existing apps to accept mobile payments
	IVR	Multi-lingual integratable IVR for over-the-phone/MOTO payments
	Virtual Terminals	Our Virtual One Terminal enables your customer service reps to take ACH and Credit/Debit Cards in real-time. In addition to one-time payments, setup recurring or custom payment plans for customers that owe large balances or want to make automatic payments.
