# IntelliPay™

# OneTax

## How It Works

Using a familiar cart experience, taxpayers search for and view their tax bills and make payments on single or multiple properties, simplifying payments for third-party payers. When integrated with existing software, a single login puts all tax files and payment data in one location, streamlining operations. To ensure compliance, we customize OneTax to specific state tax payment statutes.

## Why OneTax?

- Upload tax file via SFTP
- Display amounts including discounts and late fees
- Make one or multiple payments in one visit
- Display unpaid items from previous years
- Allow customers to pay "past-due" tax bills

## QUICK FACTS

**Property owners search and pay taxes for single or multiple properties**

**Customizable to state tax statues**

**Integrates with tax software**

## USE CASE

State/County/City property tax collection

12884 S Frontrunner Blvd., Suite 220
Draper, UT 84020
