

QuickBooks® Online Integration

How It Works

Our integration with QuickBooks allows you to process payments with IntelliPay seamlessly. Compatible with QuickBooks Online, invoices, and payment history are securely tracked on both platforms, providing peace of mind that your and your customer's data is safe. Customer and transaction details are also individually listed and reconciled across both platforms.

Why our QuickBooks® integration?

- Use our front-end solutions and payment options with QuickBooks
- Real-time transaction data and synchronization
- Detailed transaction data
- Transaction details reconciled across platforms
