This set of instructions is to assist with the "Action Needed" items

1. First click on the blue "[Chrome Web Store](#)" link

✗ Browser plugin is NOT installed. The plugin is available from the [Chrome Web Store](#). Please install this before installing the driver.

The select the "add to Chrome" option

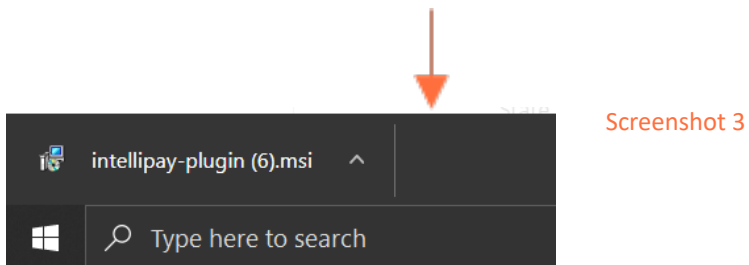

Refer back to the "Action Needed" page. If you select, "Check Again", you should now have one green check mark.

2. Now, click on the "[download](#)" link to install the plug-in (drivers).

⊗ System driver is NOT installed. After installing the plugin please [download](#) and install. If after installing the driver this message still shows then you are required to completely close and restart your browser.

In the bottom left or middle of your screen, a download should have started.
Select the intellipay-plugin download and save/open/run the program and follow the installation steps.

Refer back to the "Action Needed" page. If you select, "Check Again", you should now have two green check marks. Proceed to plug in the Augusta/EMV Card Reader and select check again.

The page should now redirect to where you can take a payment. If it does not, please sign out of IntelliPay and close all open tabs. Then retry.
