

Text-to-Pay Portal

How It Works

Easily create and securely send on-demand “pay now” links with customized messages and attachments via email and text using our intuitive Text-to-Pay Portal. Links are securely and automatically generated and can include information collected when sending the link. In addition, a built-in history viewer keeps track of “Links” sent.

Why Use Text-to-Pay?

- Sends secure “pay-now” links via text and email
- Complete history of inks sent
- Built-in templates plus the ability to create custom messages
- Easy to implement and use
- Works with your current merchant account

QUICK FACTS

Creates secure on-demand payment links via text and email

Pre-fills customer data

Built-in link history viewer

USE CASE

Any organization can use text and email on-demand payment links to speed payments. In addition, email or text reminders may reduce late payments.
